

## DJ

DJ is 16 years old. Here is what he would like you to know about him.

---

### **My Favorite Things:**

I like to engage in outdoor activities. I like working out, playing sports, running, biking, skiing and snowshoeing in the winter. I also like to play video games & drawing.

---

### **Things I do not like:**

I really do not like to be called by my first name. I do not respond well to people who raise their voices.

---

### **Favorite Foods:**

My absolute favorite food is McDonalds. I see it as a rare treat. Other than that, I will eat almost everything. I REALLY do not like cooked vegetables. I will eat lots of raw vegetables.

---

### **What I want in a family:**

I want a home in Vermont, ideally in the area of St. Albans. I am not sure if I am comfortable with the idea of living with two dads, but am open to other options. I am comfortable with living in a home with people of a different ethnicity. I want to live in either a town or a small city. I want a family that will allow me to maintain contact with my mother.

---

### **What we want families to know about the youth:**

Parents who are willing to work as a team to meet DJ's needs; can provide consistent structure and positive reinforcement; and are open to DJ staying in contact with the important people in his life. Parents, who are active, enjoy the outdoors and can provide DJ with new learning experiences.

---

### **What we are looking for in a family for this child:**

A family with children older than DJ. A family that can support DJ in his desire to remain in contact with his mother. A family that has an understanding of trauma and can support DJ in his treatment and growth.
